Our online Safeguarding Adults training explains what is meant by safeguarding adults and how you can protect an adult's right to live in safety, free from abuse and neglect.

For employers, it is an easy way to ensure that all employees are up to date with Regulation 13: Safeguarding service users from abuse and improper treatment of the Health and Social Care Act 2008 (Regulated Activities) Regulations 2014.

The approximate duration of this training is 2 hours.

PURCHASING FOR YOUR ORGANISATION

If you are buying for your organisation rather than for yourself, it is simple for you to add learners, assign training and print certificates. You will have a dashboard to monitor learner progress and attainment.

Our training licences **don't expire** and are only assigned to a learner the first time they launch the training. Substantial discounts are applied to bulk purchases and annual licences are also available.

The course has been certified by the CPD Certification Service.

The assessment is generated from question banks so that the questions change each time a candidate takes the assessment – making the training suitable for initial and refresher training.

There is no limit on the number of attempts at the assessment and informative feedback is given so candidates can learn from their incorrect responses. A certificate, with the CPD logo, is available for download on successful completion of the assessment.
