Our Fire Safety Awareness online training course ensures anyone that passes the final assessment is compliant with the Regulatory Reform (Fire Safety) Order 2005, the Fire Safety (Scotland) Regulations 2006 and the Fire Safety Regulations (Northern Ireland) 2010.

This training identifies fire safety concerns and outlines measures that apply in premises where the building, or part of the building, is an educational premises.

The approximate duration of this training is 1 hour.

PURCHASING FOR YOUR ORGANISATION

If you are buying for your organisation rather than for yourself, it is simple for you to add learners, assign training and print certificates. You will have a dashboard to monitor learner progress and attainment.

Our training licences **don't expire** and are only assigned to a learner the first time they launch the training. Substantial discounts are applied to bulk purchases and annual licences are also available.

The course has been accredited by the CPD Certification Service and approved by RoSPA.

The assessment is generated from question banks so that the questions change each time a candidate takes the assessment – making the training suitable for initial and refresher training.

There is no limit on the number of attempts at the assessment and informative feedback is given so candidates can learn from their incorrect responses. A certificate with the CPD and RoSPA logo, is available for download on successful completion of the assessment.
