

ENGAGING, RELEVANT, COST EFFECTIVE TRAINING

Food Safety & Hygiene Awareness (Level 1)

**£10
ONLY**

Our online introductory Food Safety & Hygiene online awareness training course ensures staff have a basic knowledge of food hygiene so they can work safely.

The information contained in this training is relevant to everyone whose role involves handling of pre-packaged low-risk foods and is required to have a basic knowledge of general food safety and best practices. If your role involves directly handling or preparing high-risk foods, then you will need to take a Level 2 Food Safety & Hygiene training course.

The approximate duration of this training is 1 hour.

PURCHASING FOR YOUR ORGANISATION

If you are buying for your organisation rather than for yourself, it is simple for you to add learners, assign training and print certificates. You will have a dashboard to monitor learner progress and attainment.

Our training licences **don't expire** and are only assigned to a learner the first time they launch the training. Substantial discounts are applied to bulk purchases and annual licences are also available.

The course has been accredited by the CPD Certification Service and approved by RoSPA.

The assessment is generated from question banks so that the questions change each time a candidate takes the assessment – making the training suitable for initial and refresher training.

There is no limit on the number of attempts at the assessment and informative feedback is given so candidates can learn from their incorrect responses. A certificate with the CPD and RoSPA logo, is available for download on successful completion of the assessment.
